International delivery service

Absolutely Detailed | Absolutely Personable | Absolutely Informative | Absolutely Driven

Absolutely
Intercontinental

Need to send something a bit further afield? Paris? New York? Timbuktu? Not a problem. We have over 30 years' experience within the International distribution sector. We work with local agents as well as all the major international carriers to ensure our clients get the best service at the most competitive rates. Many of our clients have customers and suppliers all over the world, so we fully understand your delivery needs.

Our International team can help you manage many areas of your delivery, including assisting with:

- shipping documentation
- customs clearance
- packaging
- storage

Our International depot is based just by Heathrow airport. We can deliver everything from an envelope to New York to a computer to Beijing and we'll keep you informed every step of the way.

Because we have an office in central London and a large vehicle fleet, we can offer later collection times than most, while still providing next day deliveries to most major European and USA cities. We also negotiate with our shipping partners to get value for money that our customers could never achieve if they went direct.

Paula West, International Depot Manager

How our team can support you

Our dedicated team has a wealth of International experience, this means that we can provide you with a flexible, knowledgeable approach and are willing to go the extra mile. In Switzerland, for example, your document becomes something different as soon as it's been stapled. That's when it pays to know someone who's been there, delivered that. We can also provide you with one-on-one account management so you can be assured that any issues that arise will be resolved quickly.

"I just want to say how grateful I am for all the help I receive from you guys, you always manage to find a solution!"

Investment Company

Our Technology

We go the extra mile to keep people informed along every step of the journey:

- We provide a fully automated online booking system (it produces the airway bill / commercial invoice / auto-completion of address)
- Free update service for all deliveries directly to your booker's email
- Multiple bookers – book from any location via the internet. (central booking not required)
- Free automatic notification that the delivery has been made
